# Maths and Reading information evening.

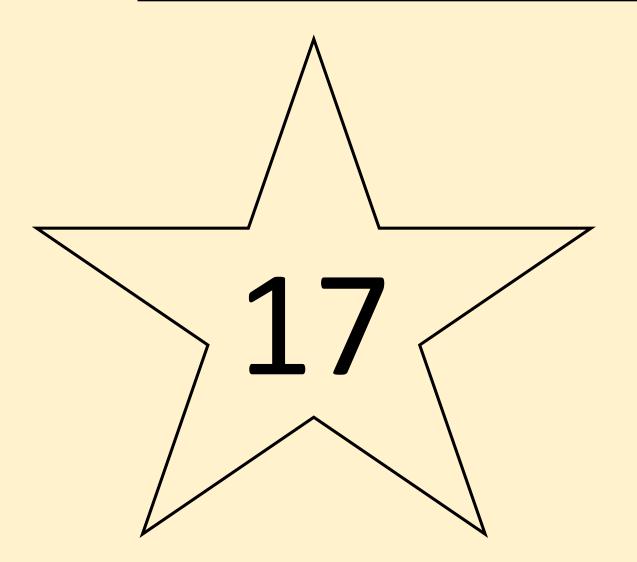

# Thursday 26<sup>th</sup> September

# Maths information evening.

What can you tell me about the number 17?

# Maths information evening.

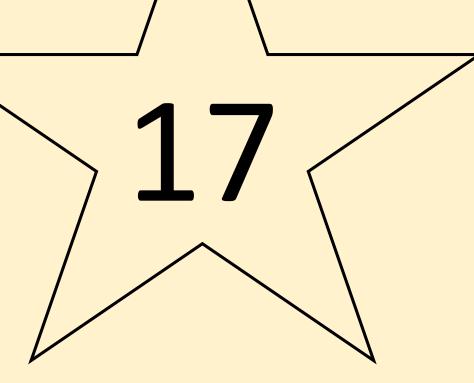

It's a prime number.

It is 87 away from 100.

It is not a composite number.

It is one more than 16.

# Maths today.

More focused on mastery (children mastering the subject) and children having a depth of understanding. Children enjoying maths...which our children do!

### Maths today.

Baseline assessment in EYFS Optional KS1 SATS in Year 2 Statutory times tables test in Year 4 Statutory SATS in Year 6 Termly assessments across all year groups Weekly arithmetic assessments Daily monitoring and assessing of pupils' learning within lessons

### Maths in EYFS

Learning through continuous provision.

Discreet teaching points and maths activities inspired by children's interests.

Mastering Number sessions.

Shape, space and measure throughout the year.

Songs and interactive, online games.

# Maths in EYFS

#### Mastering Number – Reception Overview by Week

Autumn 1	Week 1	Week 2	Week 3	Week 4	Week 5
Focus	Subitising	Counting, ordinality and cardinality	Composition	Subitising	Comparison
Set 1	Subitising within 3	Focus on counting skills	Explore how all numbers are made of 1s  Focus on composition of 3 and 4	Subitise objects and sounds	Comparison of sets - 'just by looking'  Use the language of comparison: more than and fewer than
Autumn 2	Week 6	Week 7	Week 8	Week 9	Week 10
Focus	Counting, ordinality and cardinality	Comparison	Composition	Composition	Counting, ordinality and
					cardinality

### What our lessons look like.

- Reasoning starter
- Tell me number
- Challenges to work through Extensions if needed
- Teacher modelling and support
- Teaching Assistants used to support, challenge or extend Mastering Number in EYFS & KS1

### Our maths journey.

#### Calculation

Guilden Sutton Church of England Primary School

A guide for Parents

18128243 (guildensutton.cheshire.sch.uk)

# End of EYFS expectations (Early Learning Goals).

#### **Mathematics**

#### Number

- Have a deep understanding of number to 10, including the composition of each number.
- Subitise (recognise quantities without counting) up to 5.
- Automatically recall (without reference to rhymes, counting or other aids) number bonds up to 5 (including subtraction facts) and some number bonds to 10, including double facts.

#### **Numerical Patterns**

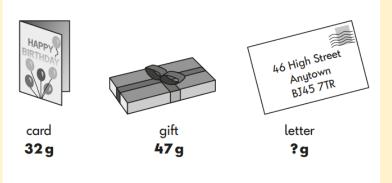

- Verbally count beyond 20, recognising the pattern of the counting system.
- Compare quantities up to 10 in different contexts, recognising when one quantity is greater than, less than or the same as the other quantity.
- Explore and represent patterns within numbers up to 10, including evens and odds, double facts and how quantities can be distributed equally.

This is what the children are assessed against to get a 'good level of development'. This is NOT the EYFS curriculum and our children will be taught more and challenged appropriately ready for KS1.

### End of Key Stage 1 expectations.

$$\frac{1}{4}$$
 of 28 =

Kemi sends a card, a gift and a letter.

Altogether the card, gift and letter weigh 100 grams.

How much does the **letter** weigh?

Here is part of a number pattern.

The numbers increase by **five** each time.

2 7 12 17

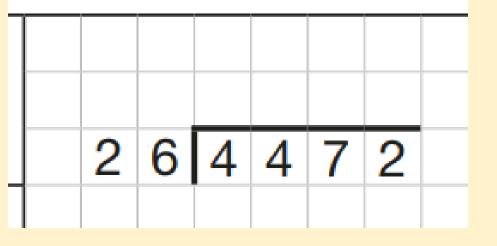

Write the next **even** number in the pattern.

### End of Key Stage 2 expectations.

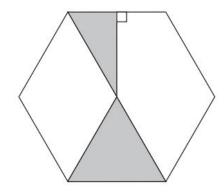

$$95\%$$
 of  $180 =$ 

$$2\frac{5}{6} - \frac{3}{4} =$$

Here is a regular hexagon.

The area of the large shaded triangle is double the area of the small shaded triangle.

What **fraction** of the whole hexagon is the shaded area?

A small box contains 650 grams of cereal.

A large box contains 20% more cereal.

One portion of cereal is 40 grams.

How many full portions are in a large box?

### How you can help at home.

Calculations (setting the table)

repeating patterns

counting out loud

times tables

Cooking (weighing and converting units of measure)

support independence with homework

money

shape spotting

telling the time!

measuring (DIY!)

Timetables (bus train etc.)

playing board games
